Program Summary: Department of Pharmacy Practice organized a awareness campaign on medication and vaccine safety at MOSC mission hospital Kolenchery. The activities were conducted successfully with active participation from students and support from hospital pharmacy department. Students prepared and displayed informative posters on various topics including immunization, antimicrobial resistance, safe use of otc drugs etc. A total of 8 posters were displayed. Counselling regarding correct medication usage, inhaler techniques were given. Patients doubt's regarding usage of certain drugs during pregnancy, drug interactions with herbal supplements etc. were cleared. More than 100 patients received direct counselling. The program contributed significantly to patient education.
