Number of participants	25
Number of Beneficiaries	25

Program Summary

The awareness campaign was conducted at Nirmala Medical Centre, Muvattupuzha on 21st November 2025. Pharm D interns and VIII semester students actively participated in educating parents of pediatric patients. The students interacted directly with parents, explained vaccination schedules, highlighted the role of vaccines in disease prevention, and addressed their doubts in a simple and understandable manner.

Educational discussions focused on routine childhood vaccines, the risks of missed doses, and the long-term benefits of immunization. Informative counseling helped parents understand the significance of following the recommended vaccination timeline.
